

# Harrison M. Hemstreet

Highland, UT, 84003 | [HarrisonHemstreet@gmail.com](mailto:HarrisonHemstreet@gmail.com)

## Summary

Highly driven software engineer enthusiastic about developing practical and time-saving software solutions, with proven skills in JavaScript, React, Node.js and PHP to meet project direction and business needs at Younique. Experienced in object-oriented programming; developing, testing and debugging code; designing interfaces; and administering systems and networks. Skilled at identifying issues with existing software and creating innovative new software programs.

## Technology Skills

- |               |                      |               |
|---------------|----------------------|---------------|
| • AWS EC2     | • Docker             | • Flask       |
| • Rust        | • JavaScript/HTML/CS | • Jinja       |
| • React       | • S                  | • Git         |
| • Context API | • jQuery             | • Jasmine     |
| • Redux       | • PostgreSQL         | • Jest        |
| • Node.js     | • SQLAlchemy         | • PHP/CakePHP |
| • Express     | • MySQL              | • PayPalAPI   |
|               | • Python             |               |

## Projects

### **Car Reviewer**

- Written in React and Node
- CRUD functionality
- Allows users to create a user, add a new car to the database, edit that car, delete that car, review that car, edit their review, delete their review and average out the car's specific ratings

### **Take Note**

- Written in Python and Flask
- CRUD functionality
- Allows users to create a user, write down their thoughts, save their thoughts, edit their notes, delete their notes, and come back later to view them again

## Experience

### **Associate Software Engineer - Younique** 10/2020 - present

- Incorporated PayPal pay in 4 feature for every purchasable item within Younique's catalog
- Implemented new PayPal SDK into the checkout process of Younique's Website
- Added new PayPal buttons with new code designed to expedite the customer service experience
- Refactored microservice written in Node.js responsible for all direct sales
- Improved functionality of Younique's sales tracker using React
- Responsible for the maintaining of the product return microservice (React, Node, AWS)
- Responsible for maintaining the customer service admin portal (React, Node, AWS)

### **Host of the Live Show & Tech Evangelist & Tutor- Career Karma** 8/2020 - Present

- Host of the Live Show, responsible for interviewing tech professionals every weeknight within the Career Karma application.
  - **Notable guests:** Nick Caldwell - VP of Engineering at Twitter, Lee Edwards - VC of Root Ventures, Timur Meyster - Co-Founder of Career Karma
- Tech Evangelist - responsible for working with the disenfranchised toward a career in tech, and point them to the resources they need to succeed

## Education

### **Springboard Software Engineering Career Track**

- *800+ hours of hands-on course material, with 1:1 industry expert mentor oversight, and completion of 4 in-depth portfolio projects. Mastered skills in front-end web development, back-end web development, databases, and data structures and algorithms.*
